MEMORANDUM FOR THE RECORD

SUBJECT: Concurrence in Definitive Contract No. BC-450 with
Hycon Manufacturing Company, Pasadena, California.
Project TM.

25X1

1. This memorandum contains recommendations submitted for approval of the Director of Central Intelligence. Such recommendations are set forth in Paragraph 5.

2. Contract No. BC-450 provides for modification, repair and overhaul of photographic equipment and related ground support equipment developed and being produced by the subject contractor and the Perkin-Elmer Corporation for Project AQUATONE and the Department of the Air Force under separate contracts between the Agency and these firms.

3. The definitive contract is a time-and-material type providing for performance of work and services on a fiscal year term basis. The contract provides authority for the contractor to expend an amount not to exceed \$150,000; however, additional funds will be obligated under the contract from time to time as repair and overhaul requirements can be determined from project and Air Force operations. The sum of \$150,000 is being obligated from Fiscal Year 1957 AQUATONE funds at this time. At such time as Air Force equipment will require servicing by the contractor sufficient funds already made available to the Agency by the Department of the Air Force will also be obligated under the contract.

4. Based on prospective requirements for the contractor's services during Fiscal Years 1957 and 1958, it is considered necessary that a sum of \$600,000 be made available for expenditure under Contract No. BC-450 for Project . An authorization document is attached hereto for the signature of the Director of Central Intelligence.
